EDUCATION

Malla Reddy Engineering College

Computer Science IoT, B.Tech

CGPA: 8.5

Hyderabad, India

Nov 2020 - Present

Sri Chaitanya Junior College

MPC, Intermediate Education

Percentage: 93%

Hyderabad, India

2018 - 2020

Sri Sai Public School

ICSE High School

Percentage: 88%

Hyderabad, India

2008 - 2018

SKILLS

Programming Languages: Java, Python, Shell Scripting, C++
Libraries/Frameworks: Java Script, Django, Numpy, Pandas, Seaborn, Matplotlib
Tools / Platforms: Nmap, Nessus, Burpsuite, Wireshark.
Databases: MySql

PROJECTS / OPEN-SOURCE

Smart Saline Monitoring System | [Link](#)

Arduino, HX711, LCD, I2C, GSM

- In emergency times, hospitals will be flooded with patients and sometimes the hostel may be understated, our team designed a smart automation which informs the responsible person about the details of saline bottle.
- Developed a weight monitoring system using Arduino and HX711 load cell sensor to measure weight accurately. Integrated an LCD display for real-time weight visualization and a GSM module to send SMS notifications when weight thresholds are exceeded.

A Novel Web Attack Detection System | [Link](#)

Python, Django

- We are living in a world where things are connected together with the help of Internet, smart watches, smart TVs are today's normal.
- So with convenience, there is also a risk, the communication between various devices is easily susceptible to various attacks. I developed a model in Python which identifies the different types of attacks.
- I used data sheets from kegg website

Quiz Generator | [Link](#)

Python-docx, python3

- During covid times, education is pertained to home. Students were given excel sheets which contain objective question bank.
- Reading from the excel sheet provides no interaction and is ineffective. I designed a program which can generate quiz from the excel sheet provided to it. It is console based. It removes the questions from excel if we answer them right.

CERTIFICATIONS

- NPTEL Online Certification Python for Data Science - **IIT Madras**
- NPTEL Online Certification Ethical Hacking - **IIT Kharagpur**
- Introduction to Programming using python - Microsoft Certifications.
- Azure Fundamentals - Microsoft Certifications.

HONORS & AWARDS

Won inter college Basket ball for 2 consecutive years.

Achieved a 5 star rating on Hacker Rank platform in Java programming language
